

Traffic Alert

Full Nighttime Closure of Route 1 in Wiscasset

On Monday, September 24, Route 1 in Wiscasset will close from 9 PM to 5 AM.

This closure will allow time for work crews to upgrade the railroad crossing on the Wiscasset end of the Donald E. Davey Bridge. This work is part of a set of comprehensive improvements to downtown Wiscasset along US Route 1 from the Fort Hill Street/Federal Street intersection to the Donald E. Davey bridge. There are also several improvements along Railroad Avenue including the construction of a new parking lot. Because the work takes place during overnight hours, there are minimal impacts for the traveling public. ****Route 218 (Federal Street) has a weight restriction of 6000lbs for thru vehicles. This will be waived for the duration of the Route 1 closure.***

Construction hours on the Wiscasset project are usually Sunday through Thursday, 8 PM to 6 AM. Work began in June, 2018 and it is expected to be completed in October, 2019.

FMI and to sign up for email alerts go to mainedot.gov

Construction schedules are dependent on weather and other factors, so the dates and hours may change. MaineDOT regrets this inconvenience and encourages motorists to drive safely. Thank you.
